The library Board reviewed the June statistic reports. Lynn answered any questions the library board had concerning these items.

Christi Fuchs took one device home and wrote a report back on how it worked for her family. The conclusion was that the device was more than adequate for usual internet use, but when utilized for gaming, it slowed the internet down significantly.

Vicki asked Lynn concerning the 175th Anniversary and the dates of September 25th, and if the library would be able to stay open till 3:00 on that day. Vicki was able to confirm that the library would host a book sell and signing by Edward Rocha, but was waiting till other details might be confirmed and finalized.

Larry Nuckels requested to be put on next agenda to discuss what is available for Amber to be able to do and have the genealogy function better at the museum. Lynn discussed LiBib, Vicki felt we could have a spreadsheet made, and Christi volunteered to create a spreadsheet and QR code to make it accessible to patrons online.

Lynn discussed first summer reading program with board. A total of 60 patrons attended the first program. (23 Adults and 37 Children)
